General conference notes

Apostles

(The First Presidency and the Quorum of the Twelve)

The fifteen apostles have been placed in order of seniority (not grouped by their two quorums, as is more common) to illustrate how succession works. The titles that are determined by seniority are in regular rectangles; the titles that are determined by calling are in rounded rectangles.

		What sessions did he speak in?	What is his name?	What was the talk (or talks) about?	What will I do about it?
